Federal Employment Laws Questions and Answers

1 Webographics are attitudinal variables thought to account for the differences between people who do surveys online and those who do not. They generally measure lifestyles issues such as the types of activities people engage and their frequency, media use, attitudes toward privacy, and openness to innovation.

Non-Probability Sampling - AAPOR

Survey researchers employ a variety of techniques in the collection of survey data. People can be contacted and surveyed using several different modes: by an interviewer in-person or on the telephone (either a landline or cellphone), via the internet or by paper questionnaires (delivered in person or in the mail). The choice of mode can [...]
