Fascinating! .. and it gives hope for the future. I suffer from anxiety, blushing and thyroid related problems. From what I have experienced, my sometimes extreme emotional reactions to simple events can't have a psychological cause only; it feels as if something inside is not balanced (and goes beyond rational thinking).

Mitral valve prolapse is the most common abnormality of the heart valve. Most people with mitral valve prolapse do not have symptoms or signs, and do not require treatment. However, when symptoms of mitral valve prolapse or complications do occur, they include anxiety, sharp chest pain, palpitations, and migraines. Some people may need medications, and rarely, surgery to repair the heart valve.
