Anatomy Chapter 6 The Muscular

Learning Objectives. By the end of this section, you will be able to: List specific transport mechanisms occurring in different parts of the nephron, including active transport, osmosis, facilitated diffusion, and passive electrochemical gradients

25.6 Tubular Reabsorption - Anatomy and Physiology

Before discussing conditions affecting the eye, we need to review some basic eye anatomy. Anatomy can be painful for some (personally, I hated anatomy in medical school) so I'm going to keep this simple. Let us start from the outside and work our way toward the back of the eye. Eyelids The eyelids protect and [...]
