Your Guide to Qualitative and Quantitative Data Analysis ...

Become familiar with the answer choices. Quantitative Comparison questions always have the same answer choices, so get to know them, especially the last choice, "The relationship cannot be determined from the information given."

GRE Quantitative Comparison Questions (For Test Takers)

Step 1: Subtract $2x$ from both sides to get . Step 2: Factor the left-hand side to get . The left-hand side of the comparison is the square of a number. Since the square of a number is always greater than or equal to 0, and 0 is greater than the simplified comparison is the inequality and the resulting relationship is greater than ($>$). In reverse order, each simplification step implies the ...

GRE Quantitative Comparison Questions (For Test Takers)

Descriptive Studies. Descriptive studies are also called observational, because you observe the subjects without otherwise intervening. The simplest descriptive study is a case, which reports data on only one subject; examples are a study of an outstanding athlete or of a dysfunctional institution. Descriptive studies of a few cases are called case series.
