Question: I have a partitioned table with a global partitioned index and I suspect that the global index is causing me poor SQL performance. Is there a performance boost in moving the partition index from a global index to a local partitioned index? If so, what is the nature of the SQL performance improvement?

Oracle global vs. local partitioned indexes

Is there a one-line command/script to copy one file to many files on Linux? cp file1 file2 file3 copies the first two files into the third. Is there a way to copy the first file into the rest?

cp - Linux commands to copy one file to many files - Stack ...

We need to transfer 15TB of data from one server to another as fast as we can. We're currently using rsync but we're only getting speeds of around 150Mb/s, when our network is capable of 900+Mb/s (tested with iperf). I've done tests of the disks, network, etc and figured it's just that rsync is only transferring one file at a time which is causing the slowdown.

bash - Speed up rsync with Simultaneous/Concurrent File ...
