If we could shrink ourselves down to the size of a 'matter particle', and we could look around inside a liquid, what would we see? We would see that the particles in the liquid are also very close together. Like solids, liquids cannot be compressed either.. Unlike solids, the particles in a liquid do not have fixed positions. They are always moving around.

Modern American candy (Post Civil War--1920s). The Industrial Revolution made possible many new candies. Advances in food technology, scientific knowledge, and cooking apparatus made possible items such as jelly beans and chocolate. Most 19th century American cookbooks do not include recipes for making chocolate candy because it was primarily made by professional confectioners.
