Assessment is an end result of gathering information intended to advance psychological theory and research and to increase the probability that wise decisions will be made in applied settings (e.g., in selecting the most promising

Personality assessment | psychology | Britannica.com

Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

CRM Best Practices. So what is CRM? Simply put, CRM is putting your customer at the heart of your business. Today it is more important than ever to build better relationships with your customers as, in this day and age of social media, they now talk to 130+ people at a time. They have a megaphone, making it easier for positive and negative messages to spread fast and wide.
