What do geography degrees cover? The geography topics you cover will largely depend on whether you've opted for a degree focused on physical geography or human geography, though at undergraduate (bachelor's) level it is often possible to cover aspects of both before choosing a specialization. Human geography is concerned with the study of human societies - how they operate, develop, and ...

While the gravity model was created to anticipate migration between cities (and we can expect that more people migrate between LA and NYC than between El Paso and Tucson), it can also be used to anticipate the traffic between two places, the number of telephone calls, the transportation of goods and mail, and other types of movement between places.

Gravity Model Definition and Examples - ThoughtCo

Geography, the study of the diverse environments, places, and spaces of Earth's surface and their interactions. It seeks to answer the questions of why things are as they are, where they are. The modern academic discipline of geography is rooted in ancient practice, concerned with the characteristics of places, in particular their natural environments and peoples, as well as the relations ...
