Quiz & Worksheet - Kinds of Soft Tissue Injury | Study.com

Soft tissue includes muscles, tendons, fibrous tissues, fat, blood vessels, neuronal, nerves, and synovial tissues. Often soft tissue injuries are some of the most chronically painful and difficult to treat because it is very difficult to see what is going on under the skin with the soft connective tissues, fascia, joints, muscles and tendons.

Soft tissue damage? | Yahoo Answers

Key points. Soft tissue injuries include strains and sprains. Strains affect muscles and tendons; sprains affect ligaments. Most soft tissue injuries are mild and can be treated with rest, cool packs, compression and raising the injured body part. Over-the-counter pain medicine can also help with

pain.

Soft tissue injuries - aboutkidshealth.ca

Bacterial-static solutions, such as nonionic surfactant cleaner, may also reduce bacterial inoculum. Solutions containing ionic detergents (eg, Betadine surgical scrub) should not be used as it is toxic to wound tissue. If necessary, wound scrubbing should be done gently to avoid damaging viable tissue. + +

WOUNDS AND SOFT TISSUE INJURIES | The Atlas of Emergency ...

About 6 weeks ago, I fell over at my school disco and 2 weeks later I visited my GP, who said I had soft tissue damage below my left knee and this would get better in time. Six weeks on from the fall, on the left side of my bone, my leg is numb but it only covers a small part of my leg. For the past week, there has been a small hard lump there which has now gone.
