I'm new to multithreading, and was trying to understand how mutexes work. Did a lot of Googling and I found a decent tutorial, but it still left some doubts of how it works because I created my own program in which locking didn't work.. One absolutely non-intuitive syntax of the mutex is `pthread_mutex_lock(&mutex1);`, where it looks like the mutex is being locked, when what I really want to ...

ctypes is part of the standard library, and therefore is more stable and widely available than swig, which always tended to give me problems.. With ctypes, you need to satisfy any compile time dependency on python, and your binding will work on any python that has ctypes, not just the one it was compiled against.

Calling C/C++ from Python? - Stack Overflow

To find out more about an author: Google the author's name or dig deeper in the library's biographical source databases.. To find scholarly sources: When searching library article databases, look for a checkbox to narrow your results to Scholarly, Peer Reviewed or Peer Refereed publications.. To evaluate a source's critical reception:
