To attain a full measure of confidence in your code you need different levels of testing: unit, integration and functional. I agree with the advice given above that states that testing should be automated (continuous integration) and that unit testing should cover all branches with a variety of edge case datasets.

You missed the mark a bit there. You pointed out that, "Intelligence is not equal throughout the races. Examples of this are evident in the inventiveness of a particular group, what technologies they create, the societal structure they create, their art and their sciences", a statement which in and of itself is a contradiction.

The evolution of sexual reproduction describes how sexually reproducing animals, plants, fungi and protists could have evolved from a common ancestor that was a single celled eukaryotic species. There are a few species which have secondarily lost the ability to reproduce sexually, such as Bdelloidea, and some plants and animals that routinely reproduce asexually (by apomixis and ...

"Zonkeys, Ligers, and Wholphins, Oh My!" Although not exactly the same mantra that the travelers in the classic Wizard of Oz repeat, these names represent real life animals just the same. In fact, two of these strange-sounding animals, a zonkey and a zorse, can now be seen at the new Creation

Museum petting zoo.

The Foundation series is a science fiction book series written by American author Isaac Asimov. First collected in 1951, for thirty years the series was a trilogy: Foundation, Foundation and Empire, and Second Foundation. It won the one-time Hugo Award for "Best All-Time Series" in 1966. Asimov began adding new volumes in 1981, with two sequels: Foundation's Edge, Foundation and Earth, and two ...
