JumpStart Adventures 3rd Grade: Mystery Mountain is a personal computer game in Knowledge Adventure's JumpStart series of educational software. As the title suggests, the game is intended to teach a third grade curriculum. This is the only version of this game created and, unusually for Knowledge Adventure, was still being sold over fifteen years after its initial release in 1996.

Population genetics (ecology) In population genetics a sex population is a set of organisms in which any pair of members can breed together. This means that they can regularly exchange gametes to produce normally-fertile offspring, and such a breeding group is also known therefore as a Gamete deme. This also implies that all members belong to the same species.

Carbon-14 Dating. Carbon-14 (14 C), also referred to as radiocarbon, is claimed to be a reliable dating method for determining the age of fossils up to 50,000 to 60,000 years. If this claim is true, the biblical account of a young earth (about 6,000 years) is in question, since 14 C dates of tens of thousands of years are common. 1. When a scientist's interpretation of data does not match the ...

Note: Traditionally burros were considered different species from their African ancestors, and their scientific name was *Equus asinus*. However, in 2003 burros were officially recognized as no more than subspecies of the wild African type, whose scientific name is *Equus africanus*. Therefore, most but not all experts now regard the burro's proper scientific name to be *Equus africanus ssp. asinus*.
