Normative bias. Neoclassical economics is sometimes criticized for having a normative bias. In this view, it does not focus on explaining actual economies but instead on describing a "utopia" in which Pareto optimality applies. In the opinion of some developers of an alternative approach, the purpose of neoclassical economics is "to demonstrate the social optimality if the real world were to ...

We review the empirical accounting literature that focuses on banking, which is a relatively large industry specific literature. Potential explanations for the prominence of banks in accounting research include the prevalence of financial assets and liabilities in banks, the use of recognized accounting numbers in the prudential regulation of banks, and easier isolation and modeling of banks ...
