Of interest is that only 8% of the feral bees morphometrically resembled managed stocks. What I found most interesting (and hardly surprising) is that they also found (not shown) that the clinal variation of feral bees over the diverse California landscape appeared to be morphologically similar to native races of bees living in climatically similar European habitats.

Evidence of common descent of living organisms has been discovered by scientists researching in a variety of disciplines over many decades, demonstrating that all life on Earth comes from a single ancestor. This forms an important part of the evidence on which evolutionary theory rests, demonstrates that evolution does occur, and illustrates the processes that created Earth's biodiversity.

Evidence of common descent - Wikipedia

Analyzing your powermeter data is as important as training with power. In my previous post I made an overview of what actually a Training Analysis Software (such as Golden Cheetah) does behind the scenes so to speak.. Initial Setup. After you install Golden Cheetah there are couple of important things you need to take care of before you can use the program - here is a quick start guide.
