You could also override the default Storage `setItem(key,value)` and `getItem(key)` methods to handle objects/arrays like any other data type. That way, you can simply call `localStorage.setItem(key,value)` and `localStorage.getItem(key)` as you normally would.. I haven't tested this extensively, but it has appeared to work without problems for a small project I've been tinkering with.

First, `Single` throws an exception if there is more than one element satisfying the criteria. Second, your criteria should only check if the `Correct` property is true. Right now, you are checking if `a` is equal to `a.Correct` (which will not even compile).. You should use `First` (which will throw if there are no such elements), or `FirstOrDefault` (which will return null for a reference type if there ...

Welcome! I hope you are interested in setting up or sustaining a proficient-reader classroom. I had you in mind when I built this site. If you are here because you enjoyed my professional-development sessions, thank you!

### **LikeToRead**

However, this method won't work for custom objects and, on top of that, it only creates shallow copies. For compound objects like lists, dicts, and sets, there's an important difference between shallow and deep copying:. A shallow copy means constructing a new collection object and then populating it with references to the child objects found in the original.

Nim is a mathematical game of strategy in which two players take turns removing (i.e., nimming) objects from distinct heaps or piles. On each turn, a player must remove at least one object, and may remove any number of objects provided they all come from the same heap/pile.

### **Nim - Wikipedia**

Historical drift Pre-English origins. The New Latin adjective *electricus*, originally meaning 'of amber', was first used to refer to amber's attractive properties by William Gilbert in his 1600 text *De Magnete*. The term came from the classical Latin *electrum*, amber, from the Greek ἤλεκτρον (*elektron*), amber. The origin of the Greek word is unknown, but there is speculation that it might ...
