Notes and guidance (non-statutory) Pupils should use the local environment throughout the year to explore and answer questions about plants growing in their habitat.

### **National curriculum in England: science programmes of ...**

The evolution of the peppered moth is an evolutionary instance of directional colour change in the moth population as a consequence of air pollution during the Industrial Revolution. The frequency of dark-coloured moths increased at that time, an example of industrial melanism. Later, when pollution was reduced, the light-coloured form again predominated.
