The complete set of illustrations that I drew to Drawkill's Goretober prompts. Had several ideas that didn't make it through where they could be done on time, but was able to finish more of these than I initially expected (especially with all the film production antics going on, both on my original projects and work for hire type stuff).

Let's Encrypt has announced they have: Turned on support for the ACME DNS challenge. How do I make ./letsencrypt-auto generate a new certificate using DNS challenge domain validation?. EDIT I mean: How do I avoid http/https port binding, by using the newly announced feature (2015-01-20) that lets you prove the domain ownership by adding a specific TXT record in the DNS zone of the target domain?
