By Emily Larlham (Note: This article is a work in progress- the more I research, the more I will add to this work.) People who live with dogs for companionship and friendship all want what is physically and psychologically best for their dog. We get dogs as companions in order to experience friendship, trust and to take care of another living creature that depends on us for their wellbeing.

### **Is it harmful to attach a leash to your dog's neck ...**

Pain is a distressing feeling often caused by intense or damaging stimuli. The International Association for the Study of Pain's widely used definition defines pain as "an unpleasant sensory and emotional experience associated with actual or potential tissue damage, or described in terms of such damage"; however, due to it being a complex, subjective phenomenon, defining pain has been a challenge.

### **Pain - Wikipedia**

Fear is a feeling induced by perceived danger or threat that occurs in certain types of organisms, which causes a change in metabolic and organ functions and ultimately a change in behavior, such as fleeing, hiding, or freezing from perceived traumatic events. Fear in human beings may occur in response to a certain stimulus occurring in the present, or in anticipation or expectation of a future ...
