Use our Bird Guide to identify birds, learn about the life history, listen to the sounds, and watch bird behavior on video--the most comprehensive guide to North

All About Birds

All birds, like all humans, inherit some of their DNA from their mothers and some from their fathers. Depending on the type of DNA, however, the pattern of inheritance can differ, and we can use these differences to our advantage to determine which two species interbred to produce a hybrid individual like the Junco's warbler.
