Almost everyone has heard the children's story by Hans Christian Andersen entitled, "The Emperor's New Clothes". It is a very interesting story about human nature. When the Emperor parades around in clothes that are invisible no one says anything because everybody thinks that if they cannot see the clothes that they are stupid, ignorant, or insane. . . or at least others will think that they are.

Many people cite anecdotal experiences of "brain fog" as proof that ketosis actually hinders mental thinking, but this is false. This misconception arises from the fact that one must undergo a period of induction into ketosis (approximately 10-30 days) in which the body adjusts itself fully to a ketogenic metabolism.
